SUMMARY

Product designer (UI/UX) who takes a problem from research to the screens that ship. I design from what users actually do: at CashKaro (25M+ users) I read session recordings and heatmaps before redesigning flows, and conversion on critical flows went up 60%. Visual design is my second strength, so what I ship looks finished. I use AI daily to speed up research, visual exploration and iteration, and the design decisions stay mine. 4.5 years in design, 2+ in core UI/UX, now the sole designer for 6 live Shopify storefronts at AHK Digital Brands. A B.Tech in Computer Science means I know what engineers need at handoff.

EXPERIENCE

UI/UX Designer, AHK Digital Brands — Sep 2026 to Present

D2C and B2B ecommerce, 3 brand groups

- Sole UI/UX designer for 6 live B2B and B2C Shopify storefronts across 3 brand groups (Myra Bag, Bohera USA, Mira & Moss)
- Leading the B2C redesign of myrausa.com, account area included, and owning the Mira & Moss storefront design from launch
- Own storefront UX from research to release, prototyping flows as working builds in Claude to test each decision before it ships
- Restructured an AI built B2B prototype into production ready Figma flows with clear IA, states and handoff specs
- Find conversion friction in GA4 and Clarity recordings, then spec the fixes and QA the agency build

UI/UX and Graphic Designer, CashKaro — Oct 2023 to Aug 2026

India's largest cashback and affiliate platform, 25M+ users, Gurugram

- Designed UI for high traffic iOS, Android and web surfaces (homepage modules, collections, landing pages) for 25M+ users, contributing to a 60% conversion lift on critical flows
- Restructured the landing page flow, information hierarchy and CTAs after identifying partner traffic funnel drop off via Hotjar and Microsoft Clarity, lifting click through rate (CTR) by 50%
- Built the Figma design system from scratch, tokens named to match code so engineers adopted it; campaigns shipped 30% faster
- Built flows, wireframes and prototypes for 4+ product surfaces, comparing more UI variations per flow with AI before committing
- Used AI in my visual workflow for CRM and 20+ graphics a month to test more directions per brief; email CTR rose 40%
- Designed the Profit Wala Love campaign solo: 1,542 transactions, INR 9.89 lakh GMV, 13,707 shares, 51% commission lift

Graphic Designer, Fabulous Media — Aug 2022 to Sep 2023

Design and marketing agency, Gurugram

- Delivered social graphics (posts, banners, GIFs, reels) for 20+ clients a month, lifting engagement 50% and lead conversion 40%
- Created visual identities and marketing collateral (flyers, business cards, brochures, website banners) for 10+ clients across ecommerce, FMCG and entertainment

UI/UX Design Trainee, EKarma India, Hisar — Oct 2021 to Apr 2022

- Designed 2 internal tools end to end for web and mobile, from research and IA to final UI, with a reusable component set

PROJECTS

ixigo Post Booking Train Experience — Case study

Self initiated mobile redesign: 1 hub, 6 journey states, 2 decision sheets. I owned research, flows, UI and copy.

Google Pay Split and Request — Case study

Self initiated retention redesign: a shared board replaces the reminder, so a split returns 4 times. 5 flows, 40+ screens.

Twelve, AI Finance App — Case study

Self initiated AI finance concept: a 12 month plan behind one safe to spend number, with model confidence on 9 screens.

Staqu JARVIS Alert Dashboard — Case study

B2B dashboard redesign for video analytics operators: a 3 tier priority system plus an operator feedback loop to cut alert fatigue.
